Forecast for Thursday 14 Jul 2022

Weather: Cloud building through the morning though with some bright spells poking through at times. Remaining largely dry but with the small chance of a light shower during the middle of the day. More in the way of sunshine developing by the evening as cloud breaks up, then leaving clear skies into the night.

Chance of cloud-free hill tops above 800m: 70%, becoming 90% for the evening.

Low Cloud and visibility: Periods of cloud above 700-800m during the morning, slowly lifting, thinning and breaking. Becoming patches above 950m during the afternoon with most summits clearing. Very poor visibility within cloud but otherwise very good visibility with excellent air clarity.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

Although it may be rather cloudy at times in the morning, remember that UV levels are still high and can penetrate through the cloud. Therefore, make sure to still wear appropriate protection throughout the day.

Forecast for Friday 15 Jul 2022

Weather: Clear spells to start Friday. Cloud then spreading more widely across the park during the morning with the chance of an isolated spell of rain in association with this. Turning increasingly sunny and warm to end the day as the cloud breaks up for the evening.

Maximum wind: 10mph south-westerly winds in the morning, transitioning to 13mph north-westerly winds in the afternoon.

Chance of cloud-free hill tops above 800m: 90% or greater to begin and end the day. 70% through the middle section.

Low Cloud and visibility: Cloud largely above the summits but with occasional patches temporarily shrouding tops above 700m through the day. Visibility outside of this generally very good with clear views.

Temperature: **Valleys:** Plus 11 Celsius, rising to plus 20 Celsius.
At 800m: Plus 7 Celsius, rising to plus 11 Celsius.
Freezing level: Above the summits.
